NOTIFICATION.

Abu, the 13th December 1922.

No. 1744.—The following 2 drafts of Notifications which it is proposed to issue in exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899) are published for the information of all persons likely to be affected thereby and notice is hereby given that the said drafts will be taken into consideration by the Hon'ble the Agent to the Governor-General on or before the 20th January 1923.

2. Any objection or suggestion which may be received from any person with respect to the 2 drafts before the date aforesaid will be considered by the Hon'ble the Agent to the Governor-General.

By order,

L. G. L. EVANS, I.C.S.,
for Secretary to the Hon'ble the Agent to the Governor General, Rajputana.

DRAFT NOTIFICATION No. I.

Abu, the 1923.

In exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899) as applied to the District of Abu, and with the previous sanction of the Governor-General in Council, the Hon'ble the Agent to the Governor-General in Rajputana, is pleased to make the following rules to regulate the possession and transport of carbide of calcium in the Abu District.

Rules to regulate the importation, possession and transport of carbide of calcium in the District of Abu.

PART I.—OF IMPORTATION OF CARBIDE OF CALCIUM.

Applicable to maritime Provinces.

PART II.—OF POSSESSION OF CARBIDE OF CALCIUM.

1. No carbide of calcium shall be kept at any place, with or without a licence unless it is "commercially pure," i.e., unless Carbide of calcium to be "commercially pure." it contains no impurities liable to generate phosphoretted or siliciuretted hydrogen so as to render the gas evolved liable to ignite spontaneously.

2. No license shall be required for the possession of carbide of calcium (i) in any quantity not exceeding five pounds if it is kept in separate vessels, such containing not more than one pound, of the nature described in, and labelled as required by, rule 1 of Part V; (ii) in any quantity exceeding five and not exceeding twenty-eight pounds where the following conditions are observed and the vessels containing it are labelled as required by rule 1 of Part V:—

(a) the carbide shall be kept only in metal vessels hermetically closed at all times when the carbide is not actually being placed in or withdrawn from such vessels;

(b) the vessels containing carbide shall be kept in a dry and well ventilated place;

(c) due precautions shall be taken to prevent unauthorized person from having access to the carbide;

(d) notice shall be given of such keeping to the licensing authority referred to in rule 8 of this Part, and free access shall be afforded to any duly authorized inspector to inspect the portion of the premises where the carbide is kept and the generator, if any, is situated.

Where a fixed generator is used on the premises:—

- (e) full and detailed instructions as to the care and use of the generator shall be kept constantly posted up in such place as to be conveniently referred to by the generator attendant.

Where it is desired to keep a greater quantity or where the above conditions cannot be complied with, application must be made to the licensing authority for a license.

3. Carbide of calcium in any quantity exceeding twenty-eight pounds may be kept only under a license to possess carbide of calcium granted under these rules. Every application for such a license shall be in form A in the schedule, and where the applicant proposes to engage in the manufacture of acetylene gas, the generating apparatus to be used by the licensee must, if manufactured in British India, have been examined by such competent authority as the Local Government or Administration of the province of manufacture may from time to time specially authorize in this behalf, and certified by it to be suitable; or, if imported, must either have been so examined and certified, or be of a type approved by the Committee on Acetylene Generators appointed by the Department of His Majesty's Inspector of Explosives, London.

4. Notwithstanding anything contained in rule 3 of this Part, carbide of calcium may, with the special permission of the Local Government, and on such conditions as may be fixed by it, be stored without a license in premises provided for the purpose.

Note.—This rule is intended to be applied only in the case of Port Trust and similar premises.

Situation of storage buildings.

5. Carbide of calcium shall be stored,—

Subject to the provisions of rule 2 of Part II, the licensee shall not deliver any quantity of carbide of calcium exceeding twenty-eight pounds to any one who has not a license under section 11 of the Act, or any quantity of such carbide of calcium exceeding half a pound, except in accordance with the rules as to the manner in which carbide of calcium is to be packed.

4. Vessels containing carbide of calcium shall be opened only for the time necessary for the removal of any quantity of carbide of calcium or for the refilling of other vessels. During such removal or refilling every reasonable precaution shall be adopted for preventing moisture being brought into contact with the carbide of calcium, as well as for guarding against the risk of ignition of any gas which may be liberated.

5. Every storage vessel of a greater storage capacity than two pounds shall be secured with a lock or be kept in a locked receptacle, so as to prevent unauthorised persons having access to the contents.

6. Due precaution shall at times be taken for the prevention of accidents from fire and no smoking, light, or fire in any form shall be permitted at any time within or near the building in which the carbide of calcium is stored.

7. If carbide of calcium is used for the manufacture of acetylene gas, the following precautions for ensuring safety shall be adopted

(a) The apparatus used must, if manufactured in India, have been examined by* _____ and certified by it to be

* Vide rule 3 of Part II

suitable, or, if imported, either

have been so examined and certified or be of a type approved by the Committee on Acetylene Generators appointed by the Department of His Majesty's Inspector of Explosives, London

(b) Every apparatus for generating and storing acetylene gas other than a portable apparatus holding a charge of less than two pounds of carbide of calcium shall be placed in an out-building which shall be separated as far as may be practicable from any inhabited building and shall be well ventilated

(c) No fire or such artificial light as would ignite inflammable gas shall be taken into or near the building, in which a gas-making apparatus is placed.

8. Every apparatus (including generator and gas-holder) used for the manufacture of acetylene gas shall, as far as practicable, be constructed and used so as to provide against special risk, that is to say:—

(a) Copper shall not be used in any part of the apparatus.

(b) The various parts shall be of adequate strength.

(c) The escape of gas from the apparatus shall be carefully guarded against.

(d) Satisfactory provision shall be made against the dangerous development of heat.

- (e) Satisfactory provision against undue pressure shall be made by the employment of an adequate safety valve connected with a pipe discharging into the open air and a suitable pressure gauge shall be attached to the apparatus.
- (f) Provision shall be made for the residue of the carbide of calcium being mixed with at least ten times its bulk of water on being removed from the apparatus.
- (g) No person shall have charge of an apparatus unless he has been properly instructed in its management.
